

# WETBLAST FLEX™

ALL-IN-ONE WETBLAST SYSTEM

Our all-in-one **WETBLAST FLEX™** system gives you convenience you don't get from traditional slurry systems. Its design, simplified set up, and ease of operation make for a more productive blasting experience. Because we mix the abrasive and water after it leaves the blast machine, you never have to empty a machine of messy water/abrasive mix.

Flexible set up options allow you to position the water injector either at the base of the blast machine or at the nozzle – your choice. With the injector at the nozzle, you can adjust the water/abrasive mix at any time.

Switch to dry-blasting with the FLEX in just a few minutes, simply remove the water injector body, and turn off air to the pump.

INDUSTRIES CORP.

**CLEMCO**®

**WETBLAST FLEX™**  
ALL-IN-ONE WETBLAST SYSTEM

**Committed to extraordinary products,  
technical support and service**

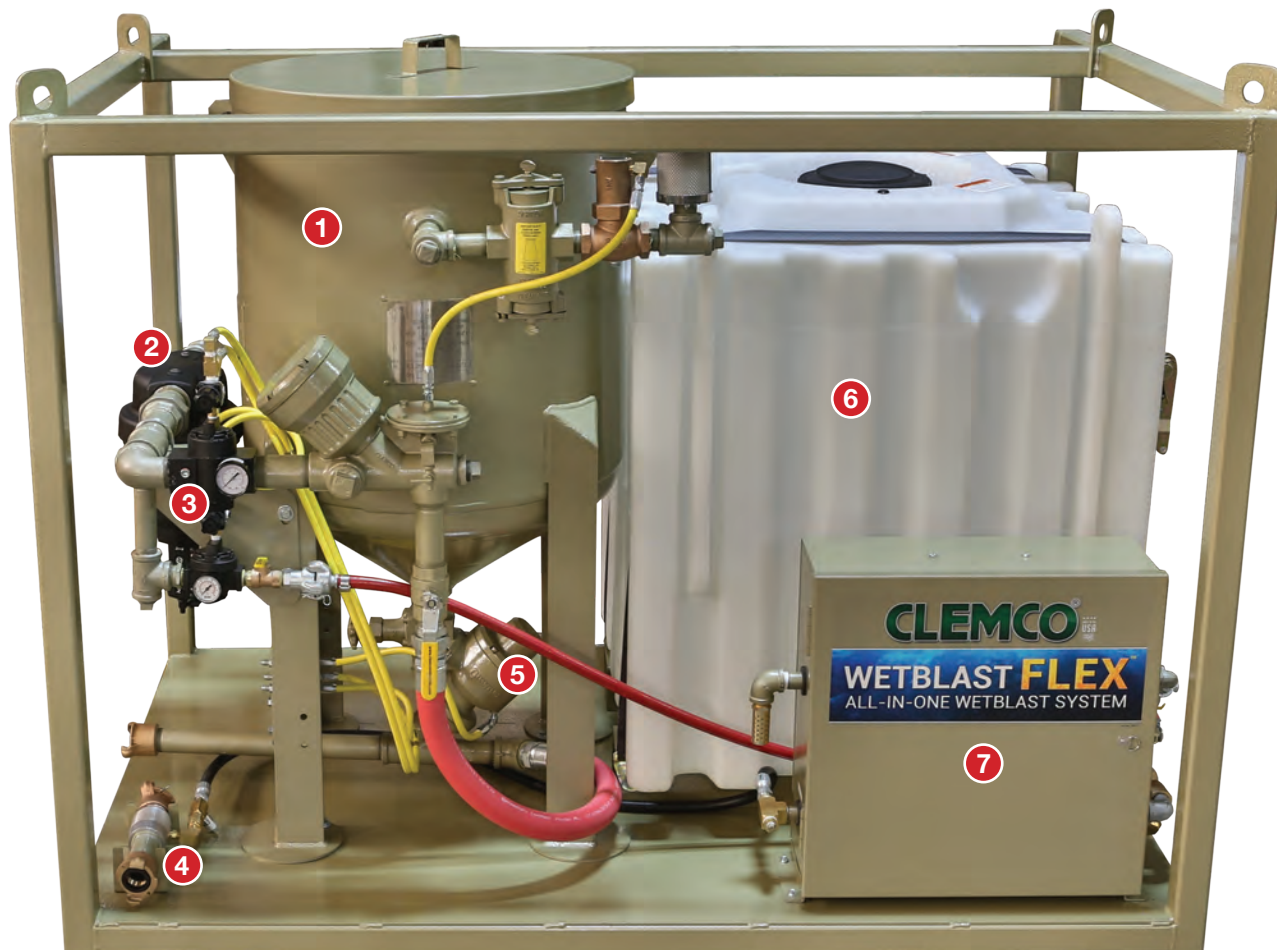

ISO 9001 Certified

## Features and Benefits

- **SKID MOUNTED**  
All-in-one convenient design with fork lift pockets and lifting eyes.
- **WATER SOURCE**  
On board water tank or municipal water source – add rust inhibitor if needed.
- **ABRASIVE CUT OFF SWITCH**  
With injector and ACS at the nozzle, you can control wash down and surface blow off without a trip to the blast machine.
- **NO POT TENDER NEEDED**  
With the injector adaptor and ACS mounted at the nozzle, there's no need for a pot tender.

### FLEX - \*BASE UNIT

- ➊ 6ft³ Blast Machine with Pneumatic Remotes and 50 ft Control Line
- ➋ Moisture Separator
- ➌ High-flow Regulator
- ➍ Base-Mount Wetblast Injector™
- ➎ Abrasive Cut-Off Switch
- ➏ 120 Gallon Water Tank
- ➐ Wetblast Injector™ Pump Module
  - Standard Wetblast Injector™ with 50' Hose
  - Blast Machine Screen & Cover
  - 1½" Pressure Regulator & Air Filter

\* Systems differ with choice of nozzle injector adaptor – contractor or fine thread.

### FLEX - PACKAGE

- Base Unit
- 50' Coupled Supa Hose
- #7 Long-Venturi Nozzle
- Apollo 600 HP DLX
- Clem-Cool Air Conditioner
- 50' Respirator Hose
- CPF-20 (installed on skid)
- Nominal Spares
